Student Code of Conduct 2022-2024

Every student succeeding

Every student succeeding is the shared vision of Queensland state schools. Our vision shapes regional and school planning to ensure every student receives the support needed to belong to the school community, engage purposefully in learning and experience academic success.

Purpose

Forest Lake State High School is committed to providing a safe, respectful and disciplined learning environment for all students, staff, parents and visitors.

The Forest Lake State High School Student Code of Conduct sets out the responsibilities and processes we use in our school to promote a productive, effective whole school approach to discipline.

Its purpose is to facilitate high standards of behaviour from all in the school community, ensuring learning and teaching in our school is prioritised, where all students are able to experience success and staff enjoy a safe workplace.

Principal's Foreword

Forest Lake State High School has a long and proud tradition of providing a first class education for every student in our community. Our purpose is to empower students to become successful global citizens. As such, we believe strong, positive relationships between all members of our school are the foundation to supporting the success of all students.

Forest Lake State High School has five core expectations known as PRIDE: being Prepared, Respectful, Inclusive, Dedicated and Engaged.

These expectations have been used in the development of this Student Code of Conduct, with the aim of helping shape and build the skills of all our students to be confident, self-disciplined and kind young people. Our school staff believe that communication and positive connections with other people are the most valuable skills our communities need now and in the future.

Forest Lake State High School staff take an educative approach to discipline, that behaviour can be taught and that mistakes are opportunities for everyone to learn. Our Student Code of Conduct details the steps school staff take to educate students about these policies and how students are explicitly taught the expected behaviours. It also provides an overview of the school's local policies on use of mobile phones and other technology, removal of student property and the approach to preventing and addressing incidents of bullying. Finally, it details the consequences that may apply when students breach the expected standards of behaviour, including the use of suspension or exclusion.

Learning and Behaviour Statement

Forest Lake State High School uses the Positive Behaviour for Learning (PBL) framework as the multi-tiered system of support for discipline in the school. This is a whole-school approach, used in all classrooms and programs offered through the school, including sporting, artistic and cultural activities as well as excursions.

PBL is an evidence-based framework used to:

- analyse and improve student behaviour and learning outcomes
- ensure that only evidence-based practices are used correctly by teachers to support students
- continually support staff members to maintain consistent school and classroom improvement practices.

At Forest Lake State High School we believe delivering consequences is about more than punishment. It is a word that reflects our belief that student behaviour is a part of the overall teaching and learning approach in our school. Our staff take responsibility for making their expectations clear, for providing supportive instruction about how to meet these expectations and strive to use behavioural incidents as opportunities to re-teach.

The development of the Forest Lake State High School Student Code of Conduct is an opportunity to explain the PBL framework with parents and students, and gain their support to implement a consistent approach to teaching behaviour. The language and expectations of PBL can be used in any environment, including the home setting for students. Doing everything we can do to set students up for success is a shared goal of every parent and school staff member.

PBL Expectations

Our staff are committed to delivering a high-quality education for every student, and believe all adults in the school, whether visiting or working, should meet the same five Positive Behaviour for Learning (PBL) expectations in place for students, being Prepared, Respectful, Inclusive, Dedicated and Engaged (PRIDE).

Students

Following are examples of what these PBL expectations look like for students across the school. In addition, each classroom will have their own set of examples to help students and visitors understand the expectations and meet the standards we hold for everyone at Forest Lake State High School.

Staff

The table below explains the PBL and professional standards we commit to as staff.

Parents

The table below explains the PBL expectations for parents – as endorsed by the Parents and Citizens' Committee - for when interacting with our school.

Reinforcing Positive Behaviours

Reinforcing and acknowledging positive PRIDE behaviours is a key element of our school culture. Research tells us that in classrooms with the correct balance of acknowledgement and correction, classrooms conversations will be centred on learning rather than management. At Forest Lake State High School we invest a great deal of time and resources to ensure this is a reality; some of the acknowledgement systems we employ are outlined below.

Years 7 and 8

- Pride Stickers
- PRIDE tickets for non-classroom settings
- Classroom Bingo
- Reward activities/events

Years 9, 10, 11 and 12

- PRIDE tickets
- PRIDE rewards activities/events
- PRIDE pass-outs for year 11 and 12
- Jerseys for year 12
- Formal for year 12

Whole school processes

- PRIDE postcards
- Reporting cycle letters of recognition
- 100% attendance recognition

Differentiated and Explicit Teaching

At Forest Lake State High School, staff utilise the Essential Skills of Classroom Management (ESCMs) to support effective teaching and learning through the development and maintenance of supportive and safe learning environments.

There are 10 essential skills broken into three sub-categories. Expert use of these skills allows teachers to increase learning time and decrease management time.

Expectation

1. Establishing expectations
2. Giving instructions
3. Waiting and scanning
4. Cueing with parallel acknowledgment

Acknowledgement

5. Body language encouraging
6. Descriptive encouraging

Correction

7. Selective attending
8. Redirecting to the learning
9. Giving a choice
10. Following through

The use of the ESCMs in conjunction with other pedagogical frameworks contributes to the effectiveness of our tiered support system.

Tier 1 is whole school prevention for all students, Tier 2 is targeted support for identified students and Tier 3 is intensive support for a small number of students. Each layer provides progressively more personalised supports for students.

Every classroom in our school uses the PRIDE expectations, as a basis for developing their behaviour standards. Having a common language allows all teachers to work with all students to explain exactly what each of the expectations look, sound and feel like in their classroom. Expectations matrixes provide guidance and teaching opportunities. An example is below.

Expectation	Classroom	Outside the classroom (e.g. playground, transit to/from school)	Representing the school (e.g. excursion, sport or culture)

Targeted Support

Approximately 15% of all students in any school or classroom may require additional support to meet behaviour expectations, even after being provided with differentiated and explicit teaching. These students may have difficulty meeting behavioural expectations in a particular period of the day or as part of a learning area/subject, and targeted support is provided to help them achieve success.

Forest Lake State High School has a range of Student Support Network staff in place to help arrange and deliver targeted support to students who need more support to meet expectations. In addition, the school invests in evidence-informed programs to address specific skill development for some students; examples of these are outlined below:

Support Program	Support Staff Network
<ul style="list-style-type: none"> Zones of Regulation Rock and Water Success Coach program Individualised playground support programs PRIDE Behaviour Workshop 	<ul style="list-style-type: none"> Case Managers Heads of Department Deputy Principals Guidance Officer Success Coach

Intensive Support

Research evidence shows that even in an effective, well-functioning school there will always be approximately 5% of the student population who require intensive teaching to achieve behavioural expectations. Intensive support involves frequent and explicit instruction, with individuals or in small groups, to develop mastery of basic behavioural concepts, skills and knowledge.

For a small number of students who continue to display behaviours that are deemed complex and challenging, then individualised, function-based behaviour assessment and support plans and multi-agency collaboration may be provided to support the student.

This approach will seek to address the acute impact of barriers to learning and participation faced by students who are negotiating a number of complex personal issues.

Inclusion

Forest Lake State High School is committed to continuing our journey towards a more inclusive education system, as part of our everyday practice. Inclusive education means that students can access and fully participate in learning, alongside their similar-aged peers, supported by reasonable adjustments and teaching strategies tailored to meet their individual needs. Inclusion is embedded in all aspects of school life, and is supported by culture, policies and every day practices.

We have high expectations of all students, recognising that, with the right support, all students can succeed.

Our commitment means that children and young people from all social, cultural, community and family backgrounds, and of all identities and all abilities can:

- attend their local state school and be welcomed
- access and participate in a high-quality education and fully engage in the curriculum alongside their similar-aged peers
- learn in a safe and supportive environment, free from bullying, discrimination or harassment
- achieve academically and socially with reasonable adjustments and supports tailored to meet their learning needs.

This document should be read alongside the Forest Lake State High School Diversity Policy and the other associated Handbook or documents indicated in the diagram above.

Consideration of Individual Circumstances

Staff at Forest Lake State High School consider students' individual circumstances, such as their behaviour history, disability, mental health and wellbeing, religious and cultural considerations, home environment and care arrangements when teaching expectations, responding to inappropriate behaviour or applying a disciplinary consequence.

In considering the individual circumstances of each student, we recognise that the way we teach, the support we provide and the way we respond to students will differ. This reflects the principle of equality, where every student is given the support they need to be successful. This also means that not everyone will be treated the same, because treating everyone the same is not fair. For example, some students need additional support to interpret or understand an expectation. Others may benefit from more opportunities to practise a required skill or behaviour. For a small number of students, the use of certain disciplinary consequences may be considered inappropriate or ineffective due to complex trauma or family circumstances. These are all matters that our teachers and principal consider with each individual student in both the instruction of behaviour and the response to behaviour.

Our teachers are also obliged by law to respect and protect the privacy of individual students, so while we understand the interest of other students, staff and parents to know what consequences another student might have received, we will not disclose or discuss this information with anyone but the student's family. This applies even if the behavioural incident, such as bullying, involves your child. You can be assured that school staff take all matters, such as bullying, very seriously and will address them appropriately. We expect that parents and students will respect the privacy of other students and families.

Whole School Approach to Discipline

The disciplinary consequences model used at Forest Lake State High School follows the same differentiated approach used in the proactive teaching and support of student behavioural expectations. At the classroom level, teachers use the Essential Skills of Classroom Management with intent to initiate more appropriate behavioural choices in a least to most intrusive approach.

Whole School Classroom Support Process

Disciplinary Consequences

Whole School Support

Class teachers provide in-class or in-school disciplinary responses to low-level or minor problem behaviour. This may include:

- Expectation teaching/reminders (e.g. “Remember, walk quietly to your seat”)
- Non-verbal and visual cues (e.g. posters, hand gestures)
- Whole class practising of routines
- Ratio of 5 positive to 1 negative commentary or feedback to class
- Corrective feedback (e.g. “Hand up when you want to ask a question”)
- Rule reminders (e.g. “When the bell goes, stay standing behind your seat until I dismiss you”)
- Explicit behavioural instructions (e.g. “Pick up your pencil”)
- Proximity control
- Tactical ignoring of inappropriate behaviour (not student)
- Revised seating plan and relocation of student/s

- Individual positive reinforcement for appropriate behaviour
- Class wide incentives
- Reminders of incentives or class goals
- Redirection
- Low voice and tone for individual instructions
- Give 30 second 'take-up' time for student/s to process instruction/s
- Reduce verbal language
- Break down tasks into smaller chunks
- Provide positive choice of task order (e.g. "Which one do you want to start with?")
- Prompt student to take a break or time away in class
- Model appropriate language, problem solving and verbalise thinking process (e.g. "I'm not sure what is the next step, who can help me?")
- Provide demonstration of expected behaviour
- Peer consequence (e.g. corrective feedback to influential peer demonstrating same problem behaviour)
- Private discussion with student about expected behaviour
- Reprimand for inappropriate behaviour
- Warning of more serious consequences (e.g. removal from classroom)
- Time-Out
- Buddy
- Detention

Targeted Support

Class teacher is supported by other school-based staff/processes to address in-class problem behaviour. This may include:

- Functional Behaviour Assessment
- Individual student behaviour support strategies (e.g. Student behaviour plan)
- Targeted skills teaching in small group
- Lunchtime or after-school detention
- Behavioural contract
- Behaviour Workshop
- Counselling and guidance support
- Self-monitoring plan
- Check in / Check Out strategy
- Teacher coaching and debriefing
- Referral to Student Services Team for team based problem solving
- Stakeholder meeting with parents and external agencies

Intensive Support

School leadership team work in consultation with Student Services Team to address persistent or ongoing serious problem behaviour. This may include:

- Functional Behaviour Assessment based individual support plan
- Complex case management and review
- Stakeholder meeting with parents and external agencies including regional specialists
- Temporary removal of student property (e.g. mobile phone)
- Short term suspension (up to 10 school days)
- Long term suspension (up to 20 school days)
- Charge related suspension (student has been charged with a serious criminal offence is suspended from school until the charge has been dealt with by the relevant justice authorities)

- Suspension pending exclusion (student is suspended from school pending a decision by the Director-General or delegate (principal) about their exclusion from school)
- Exclusion (student is excluded from a particular state school site, a group of state schools or all state schools in Queensland for a defined period of time or permanently)
- Cancellation of enrolment for students older than compulsory school age who refuse to participate in the educational program provided at the school.

Detentions

The Principal, or Principal's delegate, may use detention as a consequence for disobedience, misconduct, or other breaches of school expectations. A detention may be held during school hours, out of school hours or on a non-school day.

A detention may be held during school hours, out of school hours or on non-school days for any student in Years 7-12. Decision making regarding a detention will include an assessment of the student's behaviour and the level of risk, as well as the individual circumstances of the student.

For detention within school hours

Parents may be notified by the Principal, or other teaching staff member, if a student is placed on detention. The normal school break time schedule will be observed for the student on detention however the student may not be permitted to converse with other students during the detention period. The student will be given the opportunity for food, toilet and rest breaks, as per normal school routine.

For detentions issued for outside of school hours:

A detention issued outside of school hours will be supervised and never be more than one hour after the end of the last scheduled class. The staff member will undertake a risk-assessment to ensure the safety of all students and staff. Student will have access to a toilet break in consultation with the supervising staff member. Parents will be informed at least 24 hours prior to the detention at which time they can negotiate a change of day if necessary.

Parent/s of a student who is required to attend a Behaviour Workshop due to being buddied from their regular class will receive a text notification – at least 24 hours prior to when the workshop is scheduled - indicating the date and time of the scheduled Behaviour Workshop. Parents are invited to contact the school to discuss alternative arrangements, within the parameters set by the school, if the proposed time is not convenient. Behaviour Workshops are facilitated by a member of the school leadership team.

All incidents resulting in detentions will be recorded in OneSchool so that this information can be used to inform future decisions. A risk assessment will be completed and a risk management plan developed in accordance with individual circumstances.

It is a parent's responsibility to arrange travel/supervision at the end of the detention period.

Student attendance at the detention will be recorded. If a student fails to attend a detention, this may be considered disobedience and the principal will decide on the appropriate course of action. Examples of consequences for non-compliance or non-attendance may be the implementation of a discipline improvement plan or suspension.

School Disciplinary Absences

A School Disciplinary Absence (SDA) is an enforced period of absence from attending a Queensland state school, applied by the Principal as a consequence to address poor student behaviour. There are four types of SDA:

- Short suspension (1 to 10 school days)
- Long suspension (11 to 20 school days)
- Charge-related suspension
- Exclusion (period of not more than one year or permanently).

At Forest Lake State High School, the use of any SDA is considered a very serious decision. It is typically only used by the Principal when other options have been exhausted or the student's behaviour is so serious that continued attendance at the school is considered a risk to the safety, learning or wellbeing of the school community.

Parents and students may appeal a long suspension, charge-related suspension or exclusion decision. A review will be conducted by the Director-General or their delegate, and a decision made within 40 school days to confirm, amend/vary or set aside the original SDA decision by the Principal.

The appeal process is a thorough review of all documentation associated with the SDA decision and provides an opportunity for both the school and the family to present their case in the matter. Time is afforded for collection, dissemination and response to the materials by both the school and the family. It is important that the purpose of the appeal is understood so that expectations are clear, and appropriate supports are in place to ensure students can continue to access their education while completing their SDA.

Re-entry following suspension

Students who are suspended from Forest Lake State High School are to attend a re-entry meeting on the day of their scheduled return to school with their parent/carer. The aim of the re-entry meeting is for school staff to set the student up for future success by reflecting on behaviour and setting goals for the future (refer to Appendix 1: Reflection sheet and re-entry contract).

Defining Behaviours

Forest Lake State High School seeks to ensure that responses to inappropriate or unacceptable behaviour are consistent and proportionate to the nature of the behaviour. Minor behaviours are recorded via IDWeb and OneSchool. Major and repeated minor behaviours are recorded on OneSchool.

When responding to behaviour incidents, the staff member determines if the problem behaviour is minor or major, with the following agreed understanding:

- Minor behaviour incidents are handled by staff members at the time it happens or referred to the relevant KLA Head of Department.
- Major behaviour incidents are referred directly to the school administration team.

Minor problem behaviours are those that:

- are minor breaches of the school rules and expectations
- do not seriously harm others or cause you to suspect that the student may be harmed
- do not violate the rights of others in any other serious way
- are not part of a pattern of inappropriate behaviours
- do not require involvement of specialist support staff or Administration.

Minor problem behaviours may result in the following consequences:

- a minor consequence logically connected to the inappropriate behaviour, such as complete removal from an activity or event for a specified period of time, partial removal (time away), individual meeting with the student, apology, restitution or detention for work completion.
- a re-direction process where a staff member or HOD takes the student aside and:
 - names the behaviour that student is displaying
 - asks student to name expected school behaviour
 - states and explains expected school behaviour if necessary
 - gives positive verbal acknowledgement for expected school behaviour
 - Contact a parent to advise of the issue and seek support.

Major behaviours are those that may:

- significantly violate the rights of others
- put others/self at risk of harm
- require the involvement of school administration.
- Major behaviours may result in an immediate referral to school administration team because of their seriousness. When major unacceptable behaviour occurs, staff members calmly state the behaviour and remind the student of expected school behaviour. The staff member then escorts the student to administration office or, if in a class environment, sends for administration team assistance via a Red Card. A report of the student's behaviour is recorded on OneSchool.

Major unacceptable behaviours may result in the following consequences:

- Confiscation of item,
- time out,
- detention,
- loss of privilege,
- restitution,
- warning regarding future consequence for repeated or persistent inappropriate behaviour,
- referral to school-based support personnel.
- parent contact,
- referral to one of the school support services,

School Policies

Forest Lake State High School has tailored school discipline policies designed to ensure students, staff and visitors work cooperatively to create and maintain a supportive and safe learning environment. Please ensure that you familiarise yourself with the responsibilities for students, staff and visitors outlined in the following policies:

- Temporary removal of student property
- Use of mobile phones and other devices by students
- Preventing and responding to bullying
- Appropriate use of social media

Temporary removal of student property

The removal of any property in a student's possession may be necessary to promote the caring, safe and supportive learning environment of the school, to maintain and foster mutual respect between all state school staff and students. The Temporary removal of student property by school staff procedure outlines the processes, conditions and responsibilities for state school principals and school staff when temporarily removing student property.

In determining what constitutes a reasonable time to retain student property, the principal or state school staff will consider:

- the condition, nature or value of the property
- the circumstances in which the property was removed
- the safety of the student from whom the property was removed, other students or staff members
- good management, administration and control of the school.

The Principal or state school staff determine when the temporarily removed student property can be returned, unless the property has been handed to the Queensland Police Service.

The following items are explicitly prohibited at Forest Lake State High School and will be removed if found in a student's possession:

- illegal items or weapons (e.g. guns, knives*, throwing stars, brass knuckles, chains)
- imitation guns or weapons
- potentially dangerous items (e.g. blades, rope)
- drugs** (including tobacco)
- alcohol
- aerosol deodorants or cans (including spray paint)
- explosives (e.g. fireworks, flares, sparklers)
- flammable solids or liquids (e.g. fire starters, mothballs, lighters)
- poisons (e.g. weed killer, insecticides)
- inappropriate or offensive material (e.g. racist literature, pornography, extremist propaganda).

* No knives of any type are allowed at school, including flick knives, ballistic knives, sheath knives, push daggers, trench knives, butterfly knives, star knives, butter knives, fruit knives or craft knives, or any item that can be used as a weapon, for example a chisel. Knives needed

for school activities will be provided by the school, and the use of them will be supervised by school staff. In circumstances where students are required to have their own knives or sharp tools for particular subjects or vocational courses, the school will provide information about the procedures for carrying and storing these items at school.

** The administration of medications to students by school staff is only considered when a prescribing health practitioner has determined that it is necessary or when there is no other alternative in relation to the treatment of a specific health need. Schools require medical authorisation to administer any medication to students (including over-the-counter medications such as paracetamol or alternative medicines).

Responsibilities

State school staff at Forest Lake State High School:

- do not require the student's consent to search school property such as lockers, desks or laptops that are supplied to the student through the school;
- may seize a student's bag where there is suspicion that the student has a dangerous item (for example, a knife) in their school bag, prior to seeking consent to search from a parent or calling the police;
- consent from the student or parent is required to examine or otherwise deal with the temporarily removed student property. For example, staff who temporarily remove a mobile phone from a student are not authorised to unlock the phone or to read, copy or delete messages stored on the phone;
- there may, however, be emergency circumstances where it is necessary to search a student's property without the student's consent or the consent of the student's parents (e.g. to access an EpiPen for an anaphylactic emergency);
- consent from the student or parent is required to search the person of a student (e.g. pockets or shoes). If consent is not provided and a search is considered necessary, the police and the student's parents should be called to make such a determination.

Parents of students at Forest Lake State High School

- ensure your children do not bring property onto schools grounds or other settings used by the school (e.g. camp, sporting venues) that:
 - is prohibited according to the Forest Lake State High School Student Code of Conduct
 - is illegal
 - puts the safety or wellbeing of others at risk
 - does not preserve a caring, safe, supportive or productive learning environment
 - does not maintain and foster mutual respect;
- collect temporarily removed student property as soon as possible after they have been notified by the Principal or state school staff that the property is available for collection.

Students of Forest Lake State High School

- do not bring property onto school grounds or other settings used by the school (e.g. camp, sporting venues) that:
 - is prohibited according to the Forest Lake State High School Code of Conduct
 - is illegal
 - puts the safety or wellbeing of others at risk
 - does not preserve a caring, safe, supportive or productive learning environment
 - does not maintain and foster mutual respect;
- collect their property as soon as possible when advised by the Principal or state school staff it is available for collection.

Electronic Devices Policy
Including Mobile Phones and Personal Electronic Devices
Appropriate use of Social Media

1. Use of devices is to be in accordance with the PRIDE expectations.
2. All communication in school hours between students and their parents/caregivers must be done through the school office.
3. Devices must be switched off and not used during the school day unless a teacher has given permission for the device to be used for learning. If a student is found using a device without teacher permission the teacher will confiscate the device. Confiscated devices can be collected:
 - First offence – from the student window at the office at the end of the day;
 - Subsequent offences – the device will need to be collected from school by a parent/carer.
4. Students are to use the school Wi-Fi, not mobile data for all activities.
5. Devices are not to be used to harass or threaten others in any way (e.g. voice, text, images).
6. Devices are not permitted to be used during supervised assessment activities unless specifically allowed in the assessment conditions.
7. Students, while under the authority of the school, are forbidden to take photographs, record sound or record video without teacher permission.
8. In the interests of privacy and safety and to protect the school's image, students are not to publish images, video or audio of anyone that identifies them as a member of the Forest Lake State High School community.
9. The school may take disciplinary action against a student irrespective of whether a breach of this policy occurs during or outside of school hours.
10. Students are to follow the following strategies for use of social media so that it is positive and does not impact on learning or the school's reputation:
 - Before posting online, ask yourself if the community or individual really need to know. Is it relevant, positive and helpful?
 - Remember that what you post online is a direct reflection of who you are. People will potentially form lasting opinions of you based on what you post online.
 - Be a good role model. If things get heated online consider logging out and taking a few moments to relax and think. Hasty, emotive responses could inflame situations unnecessarily.
 - Be mindful when commenting, try to keep general and avoid posting anything that could identify individuals.
11. Avoid possible civil or criminal ramifications of online commentary by respecting the privacy of others and behaving online as you are expected to in person.

Respectful Relationships Policy: Procedures for preventing and responding to bullying

Forest Lake State High School strives to create positive, predictable environments for all students at all times of the day. The disciplined teaching environment that we are creating is essential to:

- achieving overall school improvement, including the effectiveness and efficiency of our student support procedures
- raising achievement and attendance
- promoting equality and diversity and
- ensuring the safety and well-being of all members of the school community.

1. The national definition of bullying for Australian schools says:

Bullying is an ongoing misuse of power in relationships through repeated verbal, physical and/or social behaviour that causes physical and/or psychological harm. It can involve an individual or a group misusing their power over one or more persons. Bullying can happen in person or online, and it can be obvious (overt) or hidden (covert). Bullying of any form or for any reason can have long-term effects on those involved, including bystanders.

Single incidents and conflict or fights between equals, whether in person or online, while not defined as bullying will still be followed up and actioned according to this plan.

2. There is no place for bullying in Forest Lake State High School. Research indicates that both those being bullied and those who bully are at risk for behavioural, emotional and academic problems. These outcomes are in direct contradiction to our school community's goals and efforts for supporting all students.
3. Bullying behaviours that will not be tolerated at Forest Lake State High School include name-calling, taunting, mocking, making offensive comments, kicking, hitting, pushing, taking belongings, inappropriate text messaging, sending offensive or degrading images by phone or internet, producing offensive graffiti, gossiping, excluding people from groups, and spreading hurtful and untruthful rumours. Bullying may be related to:
 - race, religion or culture
 - disability
 - appearance or health conditions
 - sexual orientation
 - sexist or sexual language
 - young carers or children in care.

At Forest Lake State High School there is broad agreement among students, staff and parents what bullying is and that it is observable and measurable behaviour.

Rationale

4. Research indicates that many problem behaviours are peer-maintained. That is, peers react to bullying in ways that may increase the likelihood of it occurring again in the future. Reactions include joining in, laughing, or simply standing and watching, rather than intervening to help the person being bullied. Whilst our school would never encourage students to place themselves at risk, our anti-bullying procedures involve teaching the entire school a set of safe and effective response to all inappropriate behaviour, including bullying, in such a way that perpetrators are not socially reinforced for demonstrating it.
5. The anti-bullying procedures at Forest Lake State High School are an addition to our already research-validated positive behaviour for learning processes. This means that all students are being explicitly taught the expected school behaviours and receiving high levels of social acknowledgement for doing so. Adding lessons on bullying and how to

prevent and respond to it is a subset of procedures that our students are already accustomed to.

Prevention

6. Attempting to address specific problem behaviours will not be successful if the general level of disruptive behaviour in all areas of our school is not kept to a low level. Therefore, our school wide universal behaviour support practices will be maintained at all times. This will ensure that:
 - Our universal behaviour support processes will always remain the primary strategy for preventing problem behaviour, including preventing the subset of bullying behaviour
 - All students know the five school PRIDE expectations and have been taught the expected behaviours attached to each rule in all areas of the school
 - All students have been or are being taught the specific routines in the non-classroom areas, from exiting the classroom, conducting themselves in accordance with the school expectations in the playground and other areas, to re-entering their classrooms
 - All students are receiving high levels of positive reinforcement for demonstrating expected behaviours, including those associated with following our routines, from all staff in the non-classroom areas of the school
 - A high level of quality active supervision is a permanent staff routine in the non-classroom areas. This means that duty staff members are easily identifiable and are constantly moving, scanning and positively interacting as they move through the designated supervision sectors of the non-classroom areas.
7. Cyberbullying often does not occur at school. Students are explicitly taught Cybersafety for example how to safely conduct an internet search, what cyberbullying is and what they should do if they receive unwanted messages including for example:
 - Not to respond to messages but keep them to report to parents and/or teachers immediately
 - Report any instances they see as a bystander of cyberbullying to parents and/or teachers immediately.
8. Forest Lake State High School will follow up reports of bullying and refer to the Queensland Police Service as necessary.
 - In 2021 FLSHS provided the opportunity for students to notify the school of incidents using the online STYMIE platform, <https://www.stymie.com.au/>.
 - Stymie provides online reporting for students. Encrypted, anonymous notifications are delivered within seconds to authorised recipients. The notification provides the option to include screenshots or images that validate the notification.
 - Our school staff monitor the notifications and action as necessary.
9. The student curriculum modules of the anti-bullying process consist of lessons taught by all teachers in all classrooms to a school wide schedule of instruction. At all times simultaneous instruction is our goal, in order to maintain consistency of skill acquisition across the school.
10. An initial introductory lesson is delivered, which teaches the 3-step Stop-Walk-Talk process to be used by all students when experiencing bullying behaviour either as a person being bullied, the person bullying or bystander.
11. The introductory lesson is followed by several shorter lessons, each of which focuses on one of the bullying behaviours that the school has identified and defined. These lessons include instruction on how to approach adults and also on what reactions and systemic responses they should expect from adults.
12. Forest Lake State High School will support the National Day of Action Against Bullying and Violence on the third Friday of March each year. This is to highlight the importance of bullying issues within our school community and what our school is doing to prevent this.
13. Research indicates that a common outcome of anti-bullying programming is an improvement in understanding of bullying but little change in the frequency or nature of

actual bullying behaviour. One of the reasons cited for this outcome is the lack of behavioural rehearsal in the programming. The Respectful Relationships Curriculum at Forest Lake State High School takes care to combine knowledge with practice in a process of active learning, so that students understand by 'doing' as much as by 'knowing'.

14. Forest Lake State High School uses behavioural data for decision-making. This data is entered into our database on a daily basis and can be recalled as summary reports at any time. This data informs the delivery of PRIDE instruction to the students.

Restrictive Practices

School staff at Forest Lake State High School need to respond to student behaviour that presents a risk of physical harm to the student themselves or others. It is anticipated that most instances of risky behaviour can be de-escalated and resolved quickly. On some rarer occasions, a student's behaviour may continue to escalate and staff need to engage immediately with positive and proactive strategies aimed at supporting the student to manage their emotional arousal and behaviour.

In some very rare situations, where there is immediate risk of physical harm to the student or other people, and when all other alternative strategies have failed to reduce the risk, it may be necessary for staff to use restrictive practices.

The use of restrictive practices will always be as a last resort, when there is no other available option for reducing immediate risk to the student, staff or other people. Restrictive practices are not used for punishment or as a disciplinary measure.

The department's **Restrictive practices procedure** is written with consideration for the protection of everyone's human rights, health, safety and welfare. There are six fundamental principles:

1. Regard to the human rights of those students
2. Safeguards students, staff and others from harm
3. Ensures transparency and accountability
4. Places importance on communication and consultation with parents and carers
5. Maximises the opportunity for positive outcomes, and
6. Aims to reduce or eliminate the use of restrictive practices.

Very rarely restrictive practices will be planned and staff will employ, when necessary, pre-arranged strategies and methods (of physical restraint/ mechanical restraint/ clinical holding) which are based upon behaviour risk assessment or clinical health need and are recorded in advance. The use of planned strategies will only be where there is foreseeable immediate risk consistent with the Restrictive Practices procedure.

Seclusion will not be used as a planned response and will only be used in serious circumstances for managing an unforeseeable situation in an emergency. It will be used for the shortest time possible and in a safe area that presents no additional foreseeable risk to the student. In such emergencies, a staff member will observe the student at all times and seclusion will cease as soon as possible.

Following the use of any restrictive practice, a focused review will help staff to understand how they responded to the risk in any incident that involved the use of a restrictive practice. Staff will consider whether there are other options for managing a similar situation in the future. This strategy works well for reducing the use of restrictive practices.

All incidents of restrictive practices will be recorded and reported in line with departmental procedures.

Critical Incidents

It is important that all school staff have a consistent understanding of how to respond in emergencies involving student behaviour that seriously endangers the student or others. This consistency ensures that appropriate actions are taken to ensure that both students and staff are kept safe.

A critical incident is defined as an occurrence that is sudden, urgent, and usually unexpected, or an occasion requiring immediate action (e.g. in the community, on the road). The aim in these situations is to bring the behaviour of the student under rapid and safe control. It is not a time to try and to punish or discipline the student; it is a crisis management period only.

Staff should follow the documented plan for any student involved in regular critical incidents, which should be saved and available for staff to review in OneSchool.

For unexpected critical incidents, staff should use basic defusing techniques:

1. Avoid escalating the problem behaviour: Avoid shouting, cornering the student, moving into the student's space, touching or grabbing the student, sudden responses, sarcasm, becoming defensive, communicating anger and frustration through body language.
2. Maintain calmness, respect and detachment: Model the behaviour you want students to adopt, stay calm and controlled, use a serious measured tone, choose your language carefully, avoid humiliating the student, be matter of fact and avoid responding emotionally.
3. Approach the student in a non-threatening manner: Move slowly and deliberately toward the problem situation, speak privately to the student/s where possible, speak calmly and respectfully, minimise body language, keep a reasonable distance, establish eye level position, be brief, stay with the agenda, acknowledge cooperation, withdraw if the situation escalates.
4. Follow through: If the student starts displaying the appropriate behaviour briefly acknowledge their choice and re-direct other students' attention towards their usual work/activity. If the student continues with the problem behaviour, then remind them of the expected school behaviour and identify consequences of continued unacceptable behaviour.
5. Debrief: At an appropriate time when there is low risk of re-escalation, help the student to identify the sequence of events that led to the unacceptable behaviour, pinpoint decision moments during the sequence of events, evaluate decisions made, and identify acceptable decision options for future situations.

Conclusion

Forest Lake State High School staff are committed to ensuring every student is supported to feel safe, welcome and valued in our school. There may, however, be occasions where parents need to raise a concern or make a complaint about an issue you feel is adversely affecting their child's education.

All Queensland state schools are committed to ensuring that all complaints - whether they relate to a school staff member or a school's operations - are dealt with in a fair and equitable manner. As a parent or carer, you can express dissatisfaction with the service or action of the Department of Education or its staff, including decisions made or actions taken in a school and/or by the local regional office.

As a complainant, it is your responsibility to:

- give us a clear idea of the issue or concern and your desired solution
- provide all the relevant information when making the complaint
- understand that addressing a complaint can take time
- cooperate respectfully and understand that unreasonable, abusive, or disrespectful conduct will not be tolerated
- let us know if something changes, including if help is no longer needed.

The Department of Education may not proceed with your complaint if your conduct is unreasonable.

In most instances, staff members are told of complaints made about them and offered the right of reply. A complainant also has the right to have a support person throughout the process.

The following three-step approach assists parents and school staff in reaching an outcome that is in the best interests of the student:

1. **Early resolution:** discuss your complaint with the school
The best place to raise any concerns is at the point where the problem or issue arose. You can make an appointment at the school to discuss your complaint with your child's teacher or the principal. You are also welcome to lodge your complaint in writing or over the phone. You can also make a complaint through [QGov](#).

Complaints may be lodged by telephone, writing or in electronic format. Email addresses can be accessed through the [schools directory](#).

2. **Internal review:** [contact the local Regional Office](#)
If, after taking the early resolution step, you are dissatisfied with the outcome of your complaint or how the complaint was handled, you can ask the local [regional office](#) to conduct a review. You need to submit a [Request for internal review form](#) within 28 days of receiving the complaint outcome.
3. **External review:** contact a review authority
if you are dissatisfied after the internal review, you may wish to contact a review authority, such as the Queensland Ombudsman, and request an independent, external review. More information about external review options is available at [www.ombudsman.qld.gov.au](#).

Some matters need to be handled in a different way to school matters and will be referred to other areas in the department. These include:

- issues about harm, or risk of harm, to a student attending a state school, which must be managed in accordance with the [Student protection procedure](#).
- complaints about corrupt conduct, public interest disclosures; or certain decisions made under legislation, which will be dealt with as outlined in the [Excluded complaints factsheet](#).
